

Licensing

The purpose of this licensing page is to list the products and licenses included in Opmantek Commercial products (i.e. products not supplied under GPL or AGPL)

For clarity, the following products are licensed under GPL or AGPL:

NMIS Version 8 is licensed from Opmantek under **GPLv3**

Open-Audit is licensed from Opmantek under **AGPLv3**

NMIS Version 4 and earlier versions of NMIS were licensed under **GPLv2**.

NMIS is written in Perl, Perl is licensed under the **GPL or the Artistic License**.

All other Opmantek Products include the following libraries and projects, which are supplied unmodified and licensed as indicated:

Package Name	Language	License
HighCharts	JavaScript	If you want to modify HighCharts you may require a license , you do not require a HighCharts license to use Opmantek products
Bootstrap	CSS and JavaScript	Apache 2.0
jQuery	JavaScript	MIT License
DataTables	JavaScript	MIT License
google-diff-match-patch	JavaScript	Apache 2.0
gridsterjs	JavaScript	MIT License
typeahead.js	JavaScript	MIT License
Date Range Picker for Bootstrap	JavaScript	MIT License
Moment.js	JavaScript	MIT License
Raphaël—JavaScript Library	JavaScript	MIT License
Dracula Graph Library	JavaScript	MIT License

The Following Perl Libraries are used in Opmantek Software, these libraries are used without modification. Thanks to all the **CPAN** authors who develop the awesome packages we use, we hope you enjoy our contributions to the open source community.
